GPA

Antietam implemented weighted GPA in 1998-1999, calculated annually for grades 9-12. Only Antietam coursework is used in calculating GPA. Any other coursework (college classes, online or alternative programs, homeschooling, and transfer credits) is not included in GPA.

Formula:

- Conversion of final grade to alpha points
- Alpha points X credits X weight = quality points
- Total quality points ÷ total attempted credits = GPA
