

Antietam's Continuity of Education

Device Deployment Plan

During this extended school closure, and to maintain continuity of education, we would like to provide a device to any student who does not have access to technology. Therefore, we will be handing out devices to those who need them next week (by appointment only):

Grades K & 1: Monday, April 6th, Mt Penn Primary Center (Front Entrance)

Grades 2-6: Tuesday, April 7th, Mt Penn Elementary Center (Front Entrance)

Grades 7-12: Students in grades 7-12 are already 1:1 with devices. Building principals will provide guidance for when students can retrieve devices that were left in their school locker. We are also aware that some MSHS chromebooks may need a repair. We will follow up next week with information on how to arrange repairs.

The district has a limited availability of devices. Therefore, and in order to provide a device for everyone that needs one, we ask that you please use your discretion if you already have a device your student can use.

We are using SignUpGenius (below) to allow families to sign up for a time slot and to minimize everyone's exposure. During your time slot, please pull up to the building and remain in your car. We will ask you for the student(s) name(s) through your passenger window; we will then place your device(s) on a table in front of the building. We will then go back inside so you can take your device from the table without being close to anyone. If you are unable to make the time slot for which you signed up, please be aware that you may be asked to come back at the end of the day.
